

***The only addition to this list is that each student will be required to have a Bible that can be left in class. The versions can be KJV, ESV, or NIV.*** This needs to be a Bible that the students can highlight and write in so please don't send a keepsake or expensive one.

Also, you will find on the list a ***locker shelf***. These can be purchased at Wal-Mart for under \$8.

**Rocketbooks** will also be required this year, not optional. Rocketbooks can be purchased at Target, [Rocketbook.com](http://Rocketbook.com), Amazon or Staples. I know this is an expensive purchase, but it is a reusable notebook that they will be using for every subject except math. For math, students will use the same spiral bound notebook daily (I know...my students are fully aware of my absolute hatred for spiral bound notebooks LOL).

## **TECHNOLOGY**

If your students have a cell phone or tablet, he or she will need to download the Rocketbook app to his/her phone.

However, cell phones will not be used in any other capacity in the classroom.

If your student has a working laptop or ipad or other table, he/she encouraged to bring it. Many of our assignments will require research and writing. We have 5 total computers in our classroom (3 desktops and 2 laptops).

Please advice your students, however, due to problems we had last year, students will not be allowed to listen to their own music on their phones and will only be using their required headphones/wired earbuds in assignment specific situations (there will be plenty of these) or with my explicit permission granted for that specific time.

## **UNIFORM REQUIREMENTS**
